CV19 Risk Assessment for outdoor practice

		Likelihood		
Consequence		<u>Unlikely</u>	<u>Possible</u>	<u>Likely</u>
	<u>Slightly harmful</u>	1b Trivial	2b Acceptable	3b Moderate
	<u>Harmful</u>	1c Acceptable	2c Moderate	3c Substantial
	<u>Extremely harmful</u>	1d Moderate	2d Substantial	3d Unacceptable
Risk level	Control			
Trivial and Acceptable	No action required – Keep note that the risk has been identified as trivial in case it is brought up in a civil claim.			
Moderate	If it is reasonably practicable to undertake some action to reduce the level of risk, then this should be done. If the risk is moderate because the consequences are extremely harmful it is unlikely that there can be any further reduction without significant effort. Ensure that there is a suitable system in place.			
Substantial and Unacceptable	Action must be taken to remove or reduce the risk. If action cannot reduce the level or remove the risk, the activity should not be undertaken. If this level arises as a result of a Decision Making assessment, the activity should cease immediately.			

Hazard	CVoid Effect	Risk Rating (e.g. 1C)	Control (What will you do?)	Responsibility
7 or more people come to be at 1 net.	Breaking the restrictions around how many people can exercise together.	3b	All session will have a max of 6 people.	Captains Coaches
2 nets	7 or more people training in close quarters	2b	There will be 2 nets either side of the square.	Groundsman, Players
Entering and exiting pitch.	More than 6 people to gather at 1 point.	3b	Players of the two net sessions will have different entrance and exiting points on the pitch.	Players
Un washed hands before practice starts.	Contaminated hands in contact with equipment.	2c	Hand sanitiser available for all to use before practice begins.	All players.
Close contact when entering the scoreboard to bring the nets out and putting them away	2 people are inside at close quarters.	2c	1 person or 2 people from the same household are to collect the nets from the scoreboard.	All players
Close contact when putting bags down and preparing to bat.	2 people are closer than 2 metres.	3b	Each player has an area for him/her to put their bag down.	All players.
Sharing cricket balls when bowling	Possibility of transmitting virus.	3d	Each player to use their own ball	All players
Close contact between bowlers when queuing up to bowl.	2 or more people closer than 2 metres.	3b	Each player to have their own area to wait before they bowl that is at least 2 metres away from everyone.	All players.
Close contact between bowler	2 people closer than 2 metres	3b	Batter will return the ball to the bowler with his/her bat and not at any time picking it up and	Batter and bowler.

and batter after the delivery.			throwing it.. Bowlers wait away from the batter until the ball is hit back to them.	
Saliva on the ball to shine	Potential for virus to spread.	3d	All players can only shine the ball with sweat.	All bowlers
Fielding practice	Sharing equipment.	3d	Only 1-1 drills can occur. Players must remain 2m apart and must sanitise hands and equipment before and after use.	Players
Coughs and sneezes	Spread of infection	3d	All players need tissue with them before practice starts. Anyone who does C or S to sanitise hand straight afterwards before they join back with the group. Bins with liners to be available around training area. Any player with a continuous cough is to leave immediately.	Players
Extra people turn up	More than 6 people with be practicing.	2b	Player/s to be told to leave the ground immediately	Captains Players
